

A cat or dog is killed in  
a local California animal  
shelter every 63 seconds

**You can save  
their lives**

# Half a million cats and dogs are killed in local animal shelters every year because of pet overbreeding and overpopulation

**There's a way to STOP this inhumane practice: Assembly Bill 1634, California Healthy Pets Act.**

- AB 1634 asks that most cats and dogs in the state of California be spayed or neutered.
- AB 1634 will drastically reduce the number of cats and dogs killed in California animal shelters every year.
- AB 1634 is supported by responsible pet owners, taxpayers, law enforcement professionals, humane associations, local government officials, animal control agencies, veterinarians and rescue groups – because they all agree it makes sense.

**With your help, we can pass AB 1634 to reduce taxpayer costs and save the lives of millions of pets.**

**Contribute to the effort to pass AB 1634 today, or visit [www.CAHealthyPets.com](http://www.CAHealthyPets.com) to learn how you can help.**
